The new ordinance stated the principal use of the lot shall be detached or attached single-family dwelling built to the standards of the North Carolina housing code. No more than one private residential quarter shall be permitted on a single deeded lot in conjunction with the principal dwelling unit. The private residential quarters shall be owned by the same person as the principal dwelling. A detached private residential quarter shall be housed in a building not exceeding 650 square feet of first floor area (maximum footprint) or 50% of the first floor area of the principal dwelling, whichever is greater; the structure may be dwelling only or may combine dwelling with garage, workshop, studio, or similar use. This provision shall not apply to private residential quarters already in existence prior to the adoption of this ordinance. A detached private residential quarter shall be located in the established rear yard and meet the standards for the applicable building and lot type in the Land Development Code. A private residential quarter must be registered with the Planning Director at the time a certificate of occupancy is obtained.
